**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **consistent** with the 2040 Policy Map recommendation for the Manufacturing & Logistics Place Type.

Rationale for Recommendation

- The petition would allow for uses permitted in ML-1 district while eliminating the possibility of more noxious uses that would otherwise be permitted under the existing ML-2 zoning.
- The proposed retail goods showroom is more compatible with the adjacent office and commercial uses than development that would be permitted under the ML-2 zoning.
- The petition would facilitate development of a parcel that has remained vacant while all surrounding parcels have been developed.

- Retail goods showrooms along with several other commercial uses are not permitted in the ML-2 district while they are allowed in ML-1, necessitating a rezoning for this site to be able to accommodate the proposal.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
 - 8: Diverse & Resilient Economic Opportunity
